Dear Mr. Reid:

I write to you as MLA representing the constituency of Alberni-Pacific Rim. One of my constituents, Jerry Flynn, recently sent you a letter outlining his concerns around health risks associated with the smart meter at his home in Bowser.

Mr. Flynn raises serious concerns associated with non-thermal radiation emitted from smart meters and relates them directly to his personal medical condition/situation. Also, from his letter, you will note that Mr. Flynn's military background provides him with a unique understanding of electromagnetic radiation and potential risks associated with exposure to such radiation. He cites many independent studies and many expert opinions to validate his concerns.

Mr. Reid, on behalf of Mr. Flynn, I ask that you take his concerns seriously and agree to his request for a non-radiating meter to be installed at his residence.

I thank you in advance for taking Mr. Flynn's concerns seriously.

Yours Truly,

Scott Fraser, MLA (Alberni-Pacific Rim)
