They are limited to whether the proposed charges would enable BC Hydro to recover expenditures that are considered program costs, investigation costs and infrastructure costs to the extent that BC Hydro requests their recovery and the amount of the failed installation charge."

Hydro-Québec reduced fees in May 2014, but in a ruling released Sep 24, 2014, the Régie de l'énergie found that even the reduced fees were too high and ordered Hydro-Québec to cut them by nearly 60 per cent. Energy Minister Pierre Arcand said he was happy with the ruling, calling it a victory for consumers. "We don't need to penalize the consumer who use those kinds of meters," he said. (Initial fee before 30 day deadline - was \$98, lowered to \$48 May 2014, now \$15 Initial fee after 30 day deadline was \$137, now \$85 monthly Reading fee was \$17.17, reduced to \$8, now \$5)
