## **DISTRIBUTION LIST**

### **Corruption, Lies and Deceit - Safety Code 6 and Wireless Devices**

Health authorities, care providers and regulatory agencies; public and private sector unions, insurance companies, realtors, fire fighters and the general public must all wake up and realize that you - like people in most countries of the world - are deliberately being deceived, misinformed and lied to by gullible and greedy Industry-co-opted governments about the alleged 'safety' of wireless devices – even baby monitors!.

Distinguished scientists around the world say that: “The greatest single threat to human health in our entire history – ever” is radio frequency radiation,” i.e., the **NON-thermal** radiation which is emitted by all of today's wireless radio devices, including baby monitors, Smart Meters, cell phones, cell phone towers, cordless phones, Wi-Fi routers, Bluetooth, laptop and tablet computers, GPS etc.! [http://freiburger-appell-2012.info/media/International\\_Doctors\\_Appeal\\_2012\\_Nov.pdf](http://freiburger-appell-2012.info/media/International_Doctors_Appeal_2012_Nov.pdf) and [www.bioinitiative.org](http://www.bioinitiative.org).

I am a retired Canadian Armed Forces captain who spent 22 of my 26+ years in the 'Forces' in Electronic Warfare (EW) and Signals Intelligence (SIGINT), the former of which included two years in National Defense Headquarters, Ottawa, in the Directorate of Electronic Warfare (DEW). In EW I worked closely with U.S. and NATO armies; attended a major NATO army EW officers' course in Anzio, Italy, and participated in a major NATO army EW field exercise in Germany. I accepted invitations to visit both the U.S. Pentagon and, subsequently, Fort Bragg, North Carolina (USA's principal EW base). Earlier still, I conducted Radio Warfare/EW at sea aboard two Canadian warships. In SIGINT, I was the Executive Officer and Operations Officer for two years at one of Canada's largest and most sensitive radio intelligence-gathering stations, where I employed some 200+ specially-trained radio operators. Throughout this period, I worked closely with the USA's NSA and Britain's GCHQ.

Militaries have known since the 1950s the harmful biological effects people experience when constantly exposed to low-level, pulsed **NON-thermal** radiation (such as British Columbians are today)! They've also known for at least 50 years that the frequencies on which today's wireless devices emit their pulsed **NON-thermal** radiation (700 MHz to 2.5 GHz) are amongst the most harmful known to man – which is precisely why militaries use these very frequencies in their microwave weapons – which can kill!! So why are all of our wireless devices today using these '*most dangerous of all*' frequencies – especially baby monitors and Smart Meters? Heads should roll for allowing such a monstrously evil thing to happen to an unsuspecting and defenseless public!!

<http://www.youtube.com/watch?v=xehJzytZr8>, [The Microwave Debate, Nicholas H. Steneck, pp 117](http://www.magdahavas.com/wordpress/wp-content/uploads/2011/06/Glaser_1972_shortened.pdf) and [http://www.magdahavas.com/wordpress/wp-content/uploads/2011/06/Glaser\\_1972\\_shortened.pdf](http://www.magdahavas.com/wordpress/wp-content/uploads/2011/06/Glaser_1972_shortened.pdf)

Not one single wireless device – not even baby monitors or smart meters - has had to undergo independent pre-market testing to ensure it is safe to be used by, on and around people of all ages and of all levels of wellness on a continuous basis, 24/7/365 in perpetuity!

Health Canada (HC), like its corrupt allies in the four so-called Radiation Regulatory Agencies: (WHO-World Health Organization; ICNIRP-International Commission on Non-Ionizing Radiation Protection; IEEE/ICES-Institute of Electrical and Electronics Engineers/International Committee on Electromagnetic Safety; and, FCC-Federal Communications Commission) **refuses to recognize NON-thermal radiation or admit that it can harm people and all living things, thereby putting not just British Columbians but all mankind and all life forms at risk!** HC, like the other named agencies, refuses to recognize the literally thousands of peer-reviewed non-industry studies which have long shown the biological harm people experience when constantly exposed to **NON-thermal radiation!** [www.bioinitiative.org](http://www.bioinitiative.org)

My research has shown that within BC not one senior health official has any education, qualifications or expertise in low-level, pulsed **NON-thermal** microwave radiation – not BC's Minister of Health, the Deputy Minister of Health, the five Regional Health Authorities, the First Nations Health Authority, Doctors of BC (formerly the BCMA)! Not even Canada's Chief Public Health Officer (CPHO), Dr. Gregory Taylor, or anyone in the Pan-Canadian Public Health Network! Not even Dr. Supriya Sharma, Senior Medical Advisor to Canada's Deputy Minister of Health and Senior Medical Advisor to Health Canada! Consequently, every person and all living things in BC are at the mercy of our lone Provincial Health Officer (PHO), Dr. Perry Kendall, whose job it is to defend us from known and emerging threats to our health and well-being. Non-industry scientists from around the world have been warning deaf governments for decades about the emerging health crisis they attribute to **NON-thermal** radiation. Today scientists say it is **THE** most serious threat to human health – ever!

Shockingly and tragically for every person and every living thing in BC, Dr. Perry Kendall, also lacks any meaningful education, qualifications or expertise in “low-level, pulsed, **NON-thermal** radio / microwave frequency radiation - even though he has been PHO since 1999! For these past 16 years (and counting) he has been content to simply echo, promote, and even defend whatever corrupt HC has told him about this pernicious form of radiation! His simplistic mantra has been (and still is): If a wireless device complies with Safety Code 6 (SC6) it must be safe”!

Inexcusably, Dr. Kendall still does not realize (or care) that, when he became PHO in 1999, SC6 admitted (on page 11) that “Certain members of the general public may be more susceptible to harm from RF and microwave exposure”! (See Page 23 of the following: <http://electromagnetichealth.org/wp->

[content/uploads/2010/04/BRAG\\_Schools.pdf](http://content/uploads/2010/04/BRAG_Schools.pdf)

Dr. Kendall continues to be ignorant of – or is unconcerned - that HC has for at least 30 years been corrupted by the U.S. military / government / telecom/wireless/electric power Industry complex, to the extent that Canada's so-called radiation "Exposure Guidelines," which are reflected in SC6, protect only against **THERMAL** radiation (like those of the USA). Neither country will admit that **NON-thermal** radiation can harm humans!

<http://www.ices-emfsafety.org/wp-content/uploads/2015/08/ICES-Response-to-Industry-Canada-IEEE-ICES-Review-081015.pdf> and [ICES \(SCC-39\) Annual Report: 2011 –](#)

Dr. Kendall also doesn't seem to realize that SC6, like those of the USA, was written by INDUSTRY and adopted wholesale by governments without question! In anticipation of the coming health crisis, they even wrote into the Canadian and U.S. regulatory codes a proviso that does not allow anyone to sue them on health grounds!

<https://chameleonfire1.wordpress.com/2015/06/07/scientists-petition-un-for-better-radiation-exposure-standards> and <http://www.magdahavas.com/pick-of-the-week-8-failed-attempt-to-reduce-safety-code-6-guidelines-in-1977/>

Nor does Dr. Kendall seem to realize and/or care) that,

- On May 7, 2015, the Canadian Medical Association Journal (CMAJ) published a scathing condemnation of HC's SC6 safety guidelines for cell phones and Wi-fi. The Journal interviewed multiple international experts in radiation and cancer, who warn that the microwave levels allowed in Canadian classrooms, residences and workplaces are, "a disaster to public health." One scientist said that given the overwhelming evidence that wireless radiation is harmful, HC staff are either, "unwilling or not competent to make evaluation of the current literature!"  
<http://c4st.org/news/what-s-happening-in-canada/canadian-medical-association-journal-reports-health-canadas-wireless-limits-are-a-disaster-to-public-health.html>
- In 2014, fifty-three (53) scientists from 18 countries openly condemned SC6 and urged HC to intervene in order to avoid an emerging health crisis!  
[http://www.albany.edu/ihe/assets/Scientist\\_Declaration.pdf](http://www.albany.edu/ihe/assets/Scientist_Declaration.pdf)
- In 2014, 22 Canadian doctors openly condemned SC6 and called on HC to protect Canadians from today's wireless technology <http://www.cellphonetaskforce.org/wp-content/uploads/2014/07/medical-doctors-submission-to-health-canada-english.pdf>
- In 2015, more than 200 distinguished scientists from 40 countries voluntarily signed the "International Scientists Appeal," urging the Secretary General of the United Nations, all UN-member countries and the WHO to *protect humans and wildlife* from the dangers of wireless radiation
- In 2011, the Seletun Scientific Panel stated: "The global population is at risk! Reduce the radiation limits 1,000 to 10,000 times!"

<http://electromagnetichealth.org/electromagnetic-health-blog/the-seletun-statement/>

- Major Insurance companies will not insure wireless products or companies against lawsuits alleging adverse health effects attributed to wireless radiation.  
[www.bioinitiative.org](http://www.bioinitiative.org)

My many attempts over the past several years to contact Premier Clark, Health Minister Terry Lake, Justice Minister Susan Anton and even PHO Dr. Perry Kendall have all met with the same wall of silence!

Given the extraordinarily serious accusations I have made, each of you is urged to conduct your own due diligence on what I have said. See what world-class non-industry scientists say - and have been saying for decades! An excellent independent website is: <http://www.icems.eu/docs/EMFacts-WIFI.pdf> which will lead you to other excellent non-industry sites: [www.bioinitiative.org](http://www.bioinitiative.org); [www.emfacts.com/wlans.html](http://www.emfacts.com/wlans.html); [www.energyfields.org](http://www.energyfields.org); [www.healthandenvironment.org](http://www.healthandenvironment.org); [www.hese-project.org/hese-uk/](http://www.hese-project.org/hese-uk/); [www.icems.eu](http://www.icems.eu); [www.iegmp.org.uk](http://www.iegmp.org.uk); [www.mastsanity.org](http://www.mastsanity.org); [www.powerwatch.org.uk/rf/wifi.asp](http://www.powerwatch.org.uk/rf/wifi.asp); and [www.radiationresea](http://www.radiationresea). Only by educating yourselves will you then be able to stand up, coalesce and speak out as one and **DEMAND** a stop to this, what amounts to, genocide! British Columbia's co-opted government, indeed all governments, must be made to heed the more than 1,000 doctors who signed the *International Doctors Appeal 2012* - which said that radio frequency radiation is: "The greatest biomedical experiment in human history ever." [http://freiburger-appell-2012.info/media/International\\_Doctors\\_Appeal\\_2012\\_Nov.pdf](http://freiburger-appell-2012.info/media/International_Doctors_Appeal_2012_Nov.pdf)

It was Margaret Mead who said: "Never doubt that a small group of thoughtful, committed people can change the world. Indeed, it is the only thing that ever has."

Sincerely,

James G. ("Jerry") Flynn, Captain (Retired)
