

***Frompovich v. PECO Energy Company***  
***PA PUC Administrative Law Court Hearing November 2 & 3, 2016***

*Nothing was adjudicated.* The hearing transcript has to be typed up (3 weeks it takes), then PECO and I have another few weeks to prepare a BRIEF and then maybe some sparring about what's in the briefs, after which the two AL judges will issue their ruling.

However, please know that I 'creamed' PECO's Dr. Mark Israel, MD, EMF and cancer expert, when he couldn't answer 90% of my questions on cross examination.

Tom McCarey sat at table with me as my research assistant and another researcher and friend Laraine, Abbey-Katzev, RN, also was at the hearing.

Laraine said she thought I did a most superb job of holding my ground and then some against PECO's 3 lawyers and 4 expert witnesses, and that PECO's team probably didn't know what hit them. One of PECO's attorneys toward the end got up to address the court about me and how I was allowed to enter information and the court allowed it.

*It was quite a tricky accomplishment,* but at the end PECO's 5 Star Morningstar attorney from Wash, DC, came over to shake my hand; wished me luck (for what); and held my hand as I gave me a short dissertation on how he should work to correct what's going on with AMI SMs since so many people are being harmed by them and EMFs, and that the SM problems will be divulged in a similar manner as to what's happening in the political arena now.

The testimony that I prepared and hoped to deliver was not permitted to be done even tho the judges and PECO's legal team received all 195 pages of my proposed testimony (18 pages) and research/documentation Exhibits, some of which was too damning toward the PA PUC.

I had prepared my presentation on the numerous times I've been a witness before Congress, the FDA, and state legislatures. However, in this case with PECO, only certain Exhibits were permitted to be entered, as the transcript will show.

However, below is the testimony I intended to present before the court and which was published in 4 parts at [ActivistPost.com](http://ActivistPost.com). The exact testimony will be available in 3 or 4 weeks per the official court transcript.
