Update 2018

I am proud to be the MLA for Esquimalt-Metchosin.

Our constituency includes the municipalities of Esquimalt, View Royal, Colwood and Metchosin and the traditional territories of Esquimalt, Songhees, Sc'ianew and T'Sou-Ke Nations.

Our government has been making good progress on our objective to make life better for British Columbians. Over the last few months, our focus has been to make life more affordable and to improve the services people count on while creating good jobs and a strong, sustainable economy.

This 2018 update includes some highlights of our work so far. I encourage you to subscribe to my newsletter, email with questions and connect with our community office if we can help you in any way.

Sincerely,

Your ideas, information and feedback are important.

Please keep me informed on issues that matter most to you. My constituency office is open to serve you – a place where you can ask questions, get help with provincial issues and let us know about community events.
