

What scientists and health care experts around the world are saying:

Quite justifiably, the public remains skeptical of attempts by governments and industry to reassure them that all is well, particularly given the unethical way in which they often operate symbiotically so as to promote their own vested interests." **Dr. Gerard Hyland**, a physicist and two-time Nobel nominee in medicine

"Global population is at risk. Reduce Exposure Limits 1,000 to 10,000 times." **The 2011 Seletun Scientific Panel**

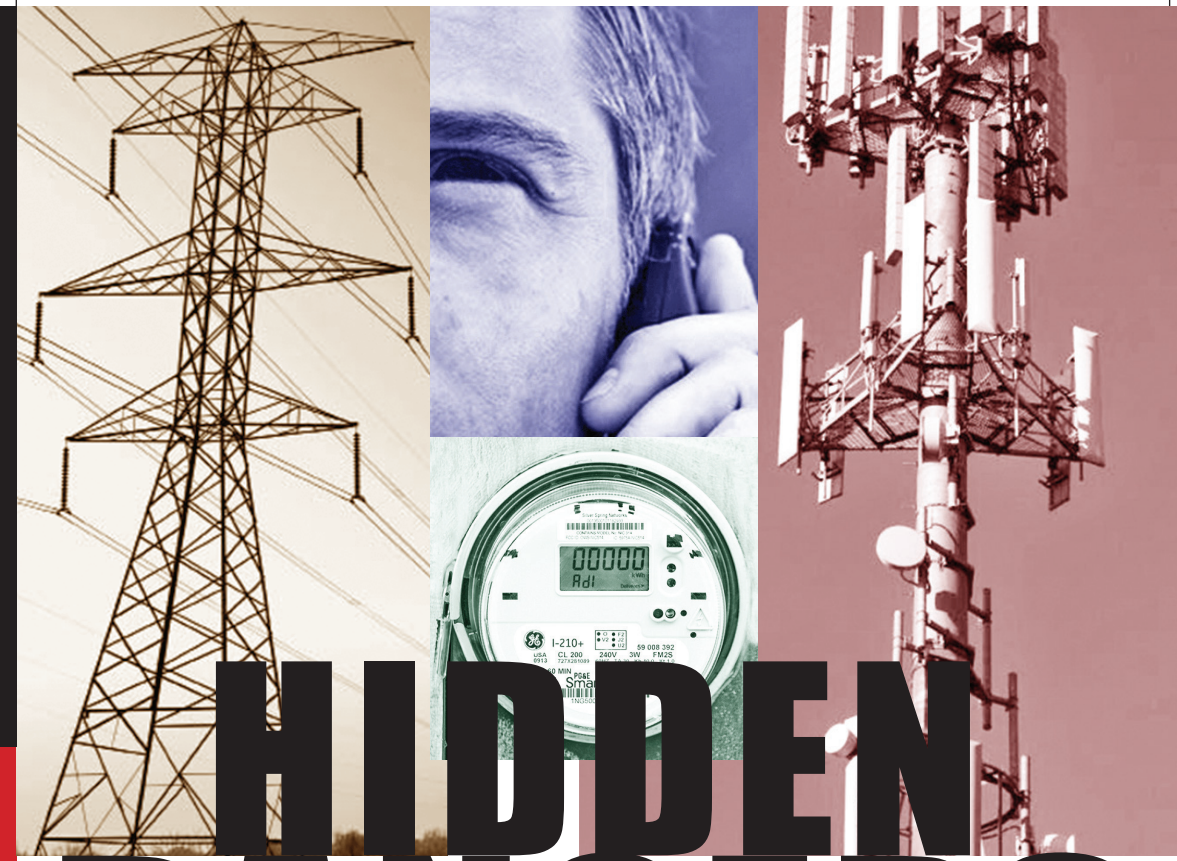

Karolinska Institute 2011 press release to the World, warning of risks to children and pregnant women and urging halt of wireless rollout and call for new safety standards.

"I think it's becoming the disaster of the 21st century." **Dr. William Rea**, U.S. cardiovascular surgeon & EHS disorder expert
