

Impacts of Wireless Technology on Health: A symposium for Ontario's medical community

Hosted by the Environmental Health Clinic at Women's College Hospital

Approved for:

6.0 Section 1 Royal College of Physicians and Surgeons of Canada

6.0 College of Family Physicians of Canada Mainpro+ and CERT+ credits

by Continuing Professional Development of the Faculty of Medicine, University of Toronto

Friday, May 31, 2019 | 8 a.m. to 4:30 p.m

Women's College Hospital | Burton Hall Auditorium

76 Grenville Street, 2nd Floor | Toronto, Canada

Join us for a day of presentations and interactive group discussions about the impacts of wireless technology on health.

Hear from clinicians, medical researchers and patient advocates about the demographics, toxicology epidemiology and pathophysiology of wireless technology, current best practices for management of illness, up-to-date research and the lived experiences of patients.

Light breakfast and small snacks will be provided. Lunch may be purchased in the WCH food court.

Cost: \$100 | Register at: <https://emfsymposium.eventbrite.ca/>
