

## MEMORANDUM OF UNDERSTANDING BETWEEN.....

*(Names of subjects, groups, associations, committees, professionals, adherent citizens for every single nation)*

Share the prerequisites for the creation of a informal civic network called the **EUROPEAN STOP 5G ALLIANCE** to share a common path to the claim of fundamental rights to the protection of public health seriously threatened together To the ecosystem of the new 5G technology and from radio-frequency emission systems.

The **EUROPEAN STOP 5G ALLIANCE** aims to aggregate all the realities and national organizations on the territory of Europe, without profit and without conflicts of interest, in order to promote every possible action and strategy in the claim of the principle Prevention and the precautionary principle enshrined in Europe.

The **EUROPEAN STOP 5G ALLIANCE** is not a party but a network of citizens and will have a slender structure to give information and operational support on the Territory.

The managerial responsibility of the **EUROPEAN STOP 5G ALLIANCE** is in the head of the individual members, through a general coordination between them. Each member, shared the strategy for individual projects and objectives from time to time identified, will be spokespersons in their own state. By maintaining its autonomy, the members are not bound to the choices from time to time promoted by the **EUROPEAN STOP 5G ALLIANCE**, but projects, actions and demonstrations can be achieved according to the achievement of common objectives in the decision-making of Europe for Counter the danger of the 5g; Increasing awareness and consciousness of the risks associated with ELECTROSMOG.

## **DISCONNECTED DAY 1/7, THE EUROPEAN PHONE AND WI-FI STRIKE**

**1ST JULY 2019**

In order to launch media and public opinion on the establishment of the informal network of the **EUROPEAN STOP 5G ALLIANCE**, on **1 July 2019** it was thought to promote an appeal to precaution, in order to renew the request for a moratorium on the 5G as well To the governing bodies.

The proposal is a day of civil, democratic and free-choice disobedience which, aiming at the dangers of the 5G, is able to denounce also the risks for ecosystem and humanity deriving from all other technologies with radiofrequency irradiation.

**DISCONNECTED DAY 1/7, the EUROPEAN MOBILE PHONE STRIKE and WI-FI FOR JULY 1, 2019 is a STRIKE AS a VOLUNTARY, CONSCIOUS and CONSCIOUS REFRAIN FROM ALL WIRELESS CONNECTIONS, inviting as many people as possible to opt for safer technologies via Cable.**

*1) The idea is born from Europe with the aim of extending it then also to the friends of the other continents to become a world strike of a whole day digital detox.*

*2) The idea was born for the day of July 1, 2019 with the intent to replicate it then every first of the month, making the appeal a fixed appointment in the wake of what (for example) is moving in the world periodic mobilization of Friday for the green future of Planet.*

The initiative, collegiate, free, non-partisan and without any profit, is designed exclusively in terms of communication to form a new critical mass among consumers on the Italian territory. To every reality adherent to the **European Stop 5G** will be asked to produce only **COMMUNICATION MATERIAL** in their national language to be run viral on the Web and social. All in a coordinated, unitary and compact way, in the always fundamental prerogatives of autonomy and independence of every national reality.
