Subject: [EMF] Updates On Washington School & Professor Liu Of Wayne State University Says Tower On School Is Wrong

For those following this case ~ thanks for your care & support

A couple of new developments with Washington Elementary School here in Michigan.

First is that Professor John Liu from Wayne State University came out yesterday in strong support of the parents of Washington School. In a news story aired by channel 2 in Metro Detroit Liu stated that "Whoever's plan to put this cellular tower so close to the students and teachers, is wrong, that this type of technology does not belong that close to the human body." He went on to say that "they are facing a high risk of brain tumor." Watch the full story:
