

FAMILY FUN SPRING CARNIVAL FUNDRAISER

Vancouver Island Safe Tech Alliance

VISTA is bringing awareness about the evidence that exists showing potential harm from wireless technology. We provide information and solutions to empower people. Based in the Comox Valley, we are connecting with and forming allies with other communities throughout Vancouver Island. The volume of cell towers and antennas continues to increase quickly everywhere. We are concerned about the potential adverse health effects to all and the lack of true transparent public consultation.

SAVE THE DATE: June 2023

(1st or 4th Weekend) 10:00 AM – 4:00 PM
